## INTRODUCTION

This document is intended primarily as a supplement to the Update on the 1986 Census Publications Program (July 1986) which describes proposed 1986 Census publications.

The present document lists the table titles which have been proposed for two groups of publications (i) Population and Dwellings Counts and (ii) Population and Dwelling Characteristics - National Series.

The proposed contents of publications are tentative and are subject to further revisions. At this point the legends for the tabulations have not been specified. However, many of the tabulations are similar to tabulations found in 1981 Census publications and the legends may be, in most cases, very similar to those used in the 1981 Census.
